

# Logging into the Unemployment Compensation (UC) Benefit System

The username and password process are similar to the login process we recognize from most applications, such as banking apps and credit cards.

Before you log into your UC account, use this table to identify your situation:

Active User	Inactive User	New User
<p>If you are an active user, you will see no changes.</p> <p>Use your login credentials like normal. If you forget your username or password, please use the "Forgot Username/Password?" link to retrieve your credentials.</p> <p>An email will be sent to your email on file to retrieve your username or reset your password.</p>	<p>You are considered an inactive user if you logged in previously but have not logged in within the past month or longer.</p> <p>You will likely attempt to login but get a warning message telling you to try again.</p> <p>This message means you will need to reset your password.</p> 	<p>You are considered a new user if you have recently applied for UC via phone, but have never logged in. During the application process a username and password were created on your behalf.</p> <p>If you recall this information, simply login.</p> <p>If you forget your login information, or it was not provided to you, please use the instructions in this guide to retrieve your username and/or reset your password.</p>
