Understanding your Benefit Summary (Payments)

From your dashboard, click “View Your Benefit Summary.”

Select the desired claim from the dropdown box.

 For help click the information icon.

Scroll down the screen until you see the Weekly Benefit Certification grid. After you file for a week it will appear in this grid.

Information you can get from this grid:

- You can click on the week ending date to review the answers you provided.
- You can confirm you weekly certification was received and when. If you believe you filed for a week and it does not show up here, please try again. The weeks are in order by date. If you have filed for many weeks, there may be multiple pages.

- The Benefit Pay Date column can indicate a payment was made. Seeing a date in the Benefit Pay Date column confirms payment was made. You should be able to see details of that payment below, in the Payment Summary grid.
- In the Benefit Pay Date column you may also see a status:
 - **In Progress:** If no issues exist on your claim, you should expect the Benefit Pay Date to display the date (month/day-year) on the following business day, indicating that the payment was released. Once you see a payment date, you should expect to receive your payment via debit card or direct deposit within one to two business days. Please allow extra days for holidays and weekends.
 - **Disqualified:** Payment will not occur because you were denied benefits. The determination explaining your denial is in your message center. NOTE: Determinations made prior to June 8, 2021 are not in your message center.
 - **Not applicable:** This is a status you see for week #1 of your claim. This normally signifies a waiting week, which is not payable per PA UC law. Since waiting weeks are currently waived for the pandemic, this will change to a date when payment is processed.
 - You may also see “Not Applicable” if you have excessive earnings for the week and are therefore not eligible for a payment. To learn more about working part-time and filing for benefits, click [here](#).
